

# Rabia Sohail

## Frontend Web Developer

## Summary

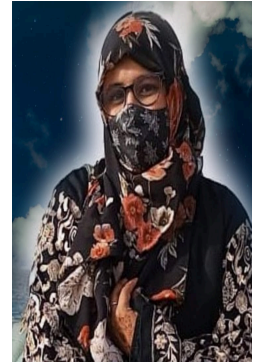

As a passionate Front-End Developer, I specialize in crafting responsive, visually appealing, and user-friendly websites and web applications. With a deep understanding of HTML, CSS, Tailwind-CSS JavaScript, and TypeScript, I bring designs to life, ensuring seamless user experiences across all devices. My expertise in React.js, Angular, and modern front-end frameworks enables me to build dynamic and interactive user interfaces.

I focus on performance optimization, accessibility, and clean code practices, ensuring every project meets the highest standards. Collaborating closely with designers and back-end developers, I ensure that UI/UX visions are transformed into functional, interactive applications. With experience in using tools like Git and vercel I streamline the development process and deliver maintainable code.

Constantly learning and adapting to new technologies, I am committed to enhancing my skills to stay ahead of the latest trends in web development. Whether it's building a single-page application or optimizing existing websites, I aim to provide efficient solutions that meet both user needs and business goals.

## Work History

2021-2022	Project Manager	Lorem ipsum dolor sit, amet consectetur adipisicing Error, minus ipsa labore molestias repellendus alias nisi dolorum aliquam doloribus debitis, blanditiis non, iure dolores in aliquid?
